### DIRECTORS' REPORT Cochlear Limited for the year ended 30 June 2010

The directors present their report, together with the Consolidated Financial Report of the Consolidated Entity (Cochlear), being Cochlear Limited (the Company) and its controlled entities, for the year ended 30 June 2010, and the Auditor's Report thereon.

#### Directors

The directors of the Company at any time during or since the end of the financial year were Mr TCE Bergman (retired 30 June 2010), Mr PR Bell, Prof E Byrne, AO, Mr A Denver, Mr R Holliday-Smith, Mr DP O'Dwyer, Mrs Y Allen (appointed 2 August 2010) and Dr CG Roberts.

Mr R Holliday-Smith was appointed Chairman effective from 1 July 2010.

Information on the directors is presented in the Annual Report.

#### **Directors' meetings**

The number of directors' meetings (including meetings of committees of directors) and number of meetings attended by each of the directors of the Company during the financial year are:

	Board of directors		Audit Committee		Medical Science Committee		Nominations Committee		Remuneration Committee		Technology and Innovation Committee	
	Held	Attended	Held	Attended	Held	Attended	Held	Attended	Held	Attended	Held	Attended
Mr TCE Bergman	12	12	5	5	-	-	3	2	4	4	2	2
Mr PR Bell	12	12	-	-	-	-	3	3	4	4	2	2
Prof E Byrne, AO	12	12	-	-	2	2	3	3	-	-	2	2
Mr A Denver	12	12	5	5	-	-	3	3	-	-	2	2
Mr R Holliday-Smith	12	12	5	5	-	-	3	3	4	4	-	-
Mr DP O'Dwyer	12	12	5	5	2	2	3	3	-	-	2	2
Dr CG Roberts	12	12	-	-	2	2	-	-	-	-	2	2

#### Principal activities and review of operations and results

The principal activities and a review of the operations of Cochlear during the year ended 30 June 2010, and the results of these operations are set out in the CEO/President's Report and the Financial Discussion and Analysis sections of the Annual Report.

Other than as discussed in the CEO/President's Report and the Financial Discussion and Analysis, there were no significant changes in the nature of those activities during the year ended 30 June 2010.

#### **Consolidated results**

The consolidated results for the financial year are:

	2010	2009
	\$000	\$000
Revenue	734,803	694,699
Profit before income tax	209,351	176,268
Net profit	155,152	130,540
Basic earnings per share (cents)	275.7	233.7
Diluted earnings per share (cents)	274.2	233.2

#### Dividends

Dividends paid or declared by the Company to members since the end of the previous financial year are:

Туре	Cents per share	Total amount \$000	Date of payment	Tax rate for franking credit
In respect of the previous financial				
year:				
Final - ordinary shares	95.0	53,384	24 September 2009	30%
In respect of the current financial year:				
Interim - ordinary shares	95.0	53,705	16 March 2010	30%

All the dividends paid or declared by the Company since the end of the previous financial year were 100% franked.

The final dividend in respect of the current financial year has not been provided for in the Financial Report as it was not declared until after 30 June 2010. Since the end of the financial year, the directors declared a final 105.0 cents per share dividend, 60% franked at the tax rate of 30%, amounting to a total of \$59,370,571.

#### **Environmental regulations**

Cochlear's operations are not subject to any significant environmental regulations under either Commonwealth of Australia or State/Territory legislation. However, the Board believes that Cochlear has adequate systems in place to manage its environmental obligations and is not aware of any breach of those environmental requirements as they apply to Cochlear.

# Non-audit services

During the year, KPMG, the Company's auditor, has performed certain other services in addition to its statutory duties. The Board has considered the non-audit services provided during the year by the auditor and in accordance with written advice provided by resolution of the Audit Committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company and have been reviewed by the Audit Committee to ensure that they do not impact the integrity and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as an advocate for the Company or jointly sharing risks and rewards.

Details of the amounts paid to the auditor of the Company, KPMG, and its related practices for audit and non-audit services during the year are set out below:

	Con	solidated
	2010	2009
	\$	\$
Audit services		
Auditors of the Company:		
KPMG Australia:		
- audit and review of financial reports	552,700	572,000
- other audit services	-	111,934
- other regulatory compliance services	6,978	17,000
Overseas KPMG firms:		
- audit and review of financial reports	564,978	639,309
- other regulatory compliance services	12,579	38,218
Total audit services	1,137,235	1,378,461
Non-audit services		
Auditors of the Company:		
KPMG Australia:		
- taxation compliance services	589,651	1,621,676
- other tax related services	107,043	106,739
Overseas KPMG firms:		
- taxation compliance services	461,149	557,366
Total non-audit services	1,157,843	2,285,781

#### State of affairs

There were no significant changes to the state of affairs of Cochlear during the financial year.

#### Likely developments

Further information as to likely developments in the operations of Cochlear and the expected results of those operations in subsequent financial years has not been included in this Directors' Report because the directors believe, on reasonable grounds, that to include such information would be likely to result in unreasonable prejudice to Cochlear.

#### Remuneration Report - audited

#### **Remuneration Committee**

The Remuneration Committee operates under delegated authority of the Board. The Remuneration Committee approves the remuneration policy and structure for executives and executive directors (senior executives) and makes recommendations to the Board on the total remuneration packages of each senior executive.

External advice on remuneration matters is obtained and is made available for the Remuneration Committee.

#### **Remuneration policies**

The Board recognises that Cochlear's performance is dependent on the quality of its people. To successfully achieve its financial and operating objectives in a complex and global environment, Cochlear must be able to attract, motivate and retain highly skilled senior executives who are dedicated to the interests of shareholders. Cochlear adopts a total remuneration approach for senior executives. The key principles that underpin Cochlear's remuneration policy include:

- a competitive total remuneration strategy provided to attract, motivate and retain senior executive talent;
- a significant proportion (up to 50% of total fixed remuneration) of total senior executive remuneration linked to financial performance and business objectives, under the Cochlear Management Short Term Incentive Plan (CMSTIP);
- a significant proportion (up to 50% of total fixed remuneration) of total senior executive remuneration linked to the creation of long-term value for shareholders under the Cochlear Executive Long Term Incentive Plan (CELTIP); and
- a requirement that all directors and members of the senior executive team achieve and then maintain a holding of shares or vested options equivalent to or greater than one year's fixed remuneration through direct acquisition of shares or by acquiring and retaining rights to vested options and performances shares.

The remuneration policy assists Cochlear to achieve its business strategy and objectives. The Remuneration Committee recognises that, while remuneration is a key factor in recruiting the right people, it is not the only factor. Cochlear's corporate reputation, its ethical culture and values and its ability to provide interesting and challenging career opportunities, also play an important role.

#### **Remuneration structure**

#### Senior executives

Remuneration of the senior executives is based on policies and programs under the following categories:

- total fixed remuneration made up of base salary and superannuation, retirement benefits and other incidental benefits; and
- variable remuneration made up of an annual short-term incentive plan and long-term incentives.

The remuneration structure is designed to strike a balance between fixed and variable remuneration. Variable remuneration is tied to performance and is at risk. The table below details the percentage remuneration components of the directors and senior executives at target levels of performance:

	Fixed Base salary 100% 100% 100% 100% 100% 50% 50% 56% 58% 56% 56% 56% 60%	Variable or at ris	at risk remuneration		
	Base salary	Short-term bonus	Long-term equity		
Directors Mr TCE Bergman (Chairman)	100%				
Mr PR Bell	100%	-	-		
Prof E Byrne, AO	100%	-	-		
Mr A Denver	100%	-	-		
Mr R Holliday-Smith	100%	-	-		
Mr DP O'Dwyer	100%	-	-		
Dr CG Roberts (CEO/President)	50%	25%	25%		
Senior executives - Consolidated Entity					
Mr R Brook (President, European Region)	56%	22%	22%		
Mr NJ Mitchell (Chief Financial Officer and Company Secretary)	58%	19%	23%		
Mr MD Salmon (President, Asia Pacific Region)	56%	22%	22%		
Mr CM Smith (President, Americas Region)	56%	22%	22%		
Mr DN Morris (President, Bone Anchored Solutions)	60%	20%	20%		
Senior executives – Company					
Mr D Howitt (Senior Vice President, Manufacturing and Logistics)	60%	20%	20%		
Mr J Janssen (Senior Vice President, Design and Development)	60%	20%	20%		

#### Service contracts

Cochlear does not enter into service contracts for senior executives, other than the CEO/President. Senior executives operate under standard termination and redundancy conditions with the following exceptions:

- the President, Asia Pacific Region has a notice period of three months; the President, European Region has a notice period of six months; and the President, Americas Region has a notice period of 60 calendar days;
- the President, European Region will receive a maximum of Swiss francs (CHF) 30,000 for repatriation costs in the case of termination or resignation; and
- the President, Americas Region will be entitled to 12 months base pay if his employment is terminated for reasons other than serious misconduct.

The CEO/President's conditions are set out separately in this Remuneration Report.

#### Base salary and benefits

Base salaries are determined by reference to appropriate benchmark information, taking into account an individual's responsibilities, performance, qualifications, experience and geographical location.

In addition to base salary, selected overseas based executives receive additional benefits including health insurance, a car allowance and a relocation allowance. In Australia, retirement benefits are paid in line with the statutory Superannuation Guarantee legislation levels. In July 2005, members of the legacy defined benefit plan were given the opportunity to transfer to the accumulation fund. Ongoing contributions are based on the estimated required company contributions, using the plan actuarial assessments to ensure that employees are not adversely prejudiced by the move. The transfer of all executive members was completed in the first half of the 2006 financial year.

Globally, retirement benefits are paid in line with local legislation and practice.

#### Variable remuneration

The Board believes that well designed and managed short-term and long-term incentive plans are important elements of employee remuneration, providing tangible incentives for senior executives to achieve Cochlear's short-term and long-term performance goals. Participation in these plans encourages greater involvement by senior executives to share in the future growth, prosperity and profitability of Cochlear in a way that gives them a community of interest with shareholders.

The proportions of variable remuneration opportunity vary for senior executives within Cochlear, reflecting an individual's responsibilities, performance and experience.

#### **Cochlear Management Short Term Incentive Plan**

Short-term incentives for senior executives are determined under the CMSTIP. The short-term incentive is structured in such a way that a significant part of the senior executive's package depends upon achievement of individual performance goals linked to the business objectives and the financial performance of Cochlear. Financial measures include revenue and earnings before interest and taxes targets. Short-term incentives are paid on both the half and full year results.

The percentage of total remuneration that is allocated to short-term incentives varies according to the senior executive's position and the range is 30% to 50% of total fixed remuneration for achieving all budgeted targets. In years of exceptional performance, the short-term incentives could increase to 100% of total fixed remuneration.

The process of determining relevant performance measures and whether they are met is as follows:

- at the beginning of the financial year, the Remuneration Committee recommends to the Board the targets for the CEO/President and the other senior executives. These are dependent on financial objectives and agreement between the CEO/President and the senior executive on individual performance goals; and
- the CEO/President and the other senior executives and then the CEO/President and Chairman assess progress towards the financial and individual performance goals. The Remuneration Committee reviews, and the Board approves, these assessments prior to any payment.

The Remuneration Committee also evaluates the proposed short-term incentive awards in aggregate and determines their appropriateness having regard to Cochlear's overall financial results. After this assessment, the Remuneration Committee makes its recommendation to the Board for payment. Once approved by the Board, the short-term incentive awards are paid to participants. This occurs on a half and full year basis.

#### **Cochlear Executive Long Term Incentive Plan**

The CELTIP was approved by shareholders at the 2003 Annual General Meeting (AGM). The CELTIP is designed to reward senior executives for achieving long-term growth in shareholder value.

Senior executives are offered a mixture of options (being options to acquire ordinary shares of Cochlear Limited) and performance shares (being fully paid ordinary shares of Cochlear Limited).

The number of options and performance shares offered to a senior executive depends on their fixed remuneration and Cochlear's target remuneration package for the senior executive's position. The mixture of options and performance shares is determined at the discretion of the Board.

The exercise price of the options is based on the weighted average price of Cochlear Limited's shares traded during the five business days following the date of the provision of the preliminary final report to the Australian Securities Exchange (ASX) in August each year. All options refer to options over ordinary shares of Cochlear Limited. Each option is convertible to one ordinary share. All performance share are ordinary shares of Cochlear Limited. Each performance share equates to one ordinary share.

Both the options and performance shares are subject to performance hurdles and vesting restrictions, which will ultimately determine the final number of options that will be exercisable and the number of performance shares receivable by a senior executive. The relevant performance hurdles and vesting restrictions are:

- a three year vesting period during which time the senior executive must remain in employment and will be unable to exercise the options or trade the performance shares; and
- the performance of Cochlear over the vesting period measured by using growth in earnings per share (EPS) and total shareholder return (TSR) as measured against the S&P/ASX 100 comparator group. Half the offer will be assessed against EPS growth and the other half using TSR as follows:

Compound annual growth rate of	of EPS over a three year period	Ranking of TSR against S&P/ASX 100 comparator group over a three year period				
Performance	% of options and performance shares vesting	Performance	% of options and performance shares vesting			
<10%	0%	<50th percentile	0%			
10% to 20%	50% to 100% pro-rata	50th to 75th percentile	50% to 100% pro-rata			
>20%	100%	>75th percentile	100%			

Options and performance shares only vest if time qualifications and relevant performance hurdles are met.

There are no voting or dividend rights attached to options. There are no voting rights attached to the unvested ordinary shares. Voting rights will be attached to the unissued ordinary shares when the options have been exercised. Performance shares are held in trust for the senior executives.

Dividends paid to the trust are subsequently paid to the relevant senior executives upon share issuance. Voting rights are not transferred but are attached to the performance shares once ownership is transferred. Dividends are no longer payable once shares are forfeited.

The following factors and assumptions were used in determining the fair value of options on grant date using the Black-Scholes model:

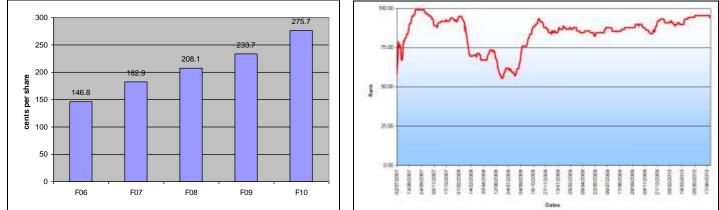

Grant date	Option life	Fair value per option	Exercise price	Price of shares on grant date	Expected volatility	Risk free interest rate per annum	Dividend yield per annum
17 August 2009	3 – 5 years	\$9.04	\$60.04	\$61.15	33.2%	4.92%	2.62%

#### Performance of Cochlear in current CELTIP cycle

Depicted in the charts below is a comparison of basic EPS of Cochlear for the financial years 2006 to 2010 and the TSR performance of Cochlear relative to the S&P/ASX 100 for financial years 2008 to 2010:

Cochlear TSR performance:

Cochlear EPS performance:

For the year ended 30 June 2010, the growth in basic EPS was 18% and the increase in total return to Cochlear Limited shareholders (as measured from the change in share price plus dividends paid) was 30%.

#### Consequences of performance on shareholder wealth

In considering Cochlear's performance and benefits for shareholder wealth, the Remuneration Committee has regard to the following indices in respect of the current financial year and the previous four financial years:

Amounts \$	2010	2009	2008	2007	2006
Net profit attributable to equity holders of the parent entity (million)	155.2	130.5	115.2	100.1	80.0
Dividends paid (million)	107.1	89.5	77.9	60.4	49.1
Share price at 30 June	74.32	57.70	43.65	61.00	54.63

#### **Executive director**

At the date of this Remuneration Report, there is one executive director in office, Dr CG Roberts.

Dr CG Roberts was appointed to the Board on 1 February 2004 at the time of his appointment as CEO/President.

Dr CG Roberts' appointment has no fixed term and a notice period of six months. If Cochlear terminates Dr CG Roberts' employment without cause, he will be entitled to receive an amount equivalent to 12 months of his total fixed remuneration plus the amount of benefits under the CMSTIP pro-rated to the date of termination.

Dr CG Roberts participates in the CMSTIP at a value equal to 50% of total fixed remuneration.

Dr CG Roberts participates in the CELTIP at a value equal to 50% of total fixed remuneration. The proportion of CELTIP that is provided between options and performance shares is determined by the Board.

#### **Non-executive directors**

Fees for non-executive directors are based on the nature of the directors' work and their responsibilities. The remuneration rates reflect the complexity of Cochlear and the extent of the geographical regions in which Cochlear operates. In determining the level of fees, survey data on comparable companies is considered. Non-executive directors' fees are recommended by the Remuneration Committee and determined by the Board. Shareholders approve the aggregate amount of non-executive director fees.

Fees are within the aggregate amount approved by shareholders at the AGM in October 2007 of \$1,500,000 a year.

At the date of this report, the Chairman of Cochlear is Mr R Holliday-Smith. His director's fees are set at three times the base fee for non-executive directors. He does not receive any additional fees for serving on committees of the Board.

From 2003, no new non-executive director was entitled to join the Cochlear Limited directors' retirement scheme. Non-executive directors appointed prior to this were members of the scheme, which provided directors with more than five years' service, retirement benefits of up to three times their annual remuneration over the previous three years.

On 23 October 2006, the Board determined that it should implement changes to non-executive director remuneration consistent with developing market practice and guidelines by discontinuing the ongoing accrual of benefits under the existing retirement scheme once the remaining members of the scheme reached their five year service period. The benefits accrued to that date will be indexed by reference to the 90 day bank bill rate.

All directors transitioned from the retirement scheme during the year ended 30 June 2007.

Non-executive directors do not receive any performance related remuneration, options or performance shares.

There are no commitments to non-executive directors arising from non-cancellable contracts with the Company or the Consolidated Entity.

#### Directors' and senior executives' remuneration details

The following table provides the details of all the directors and the executives of the Company and the Consolidated Entity with the authority and responsibility for planning, directing and controlling the activities of the Company and the Consolidated Entity (key management personnel), including the five most highly remunerated executives of the Company and the Consolidated Entity.

Details of the nature and amount of each major element of remuneration are:

				Fixed rer	muneration			Variable remuneration				Total	Proportio remune

Short-term and long-term incentive bonuses are granted annually. The grant date is tied to the performance appraisal, which for the current year was completed by 30 June 2010. The service and performance criteria are set out in this report. (i)

(ii) (iii)

performance criteria are set out in this report. Benefits include the provision of car allowances, health insurance and relocation costs. Amounts accrued for interest during the financial year to the directors' retirement scheme. The value disclosed above is the proportion of the fair value of the options and performance shares allocated to the financial year. The ability to exercise the options and performance shares is conditional on Cochlear achieving certain performance hurdles. The estimated value of options for the current financial year is calculated at the date of grant using the Black-Scholes model. Further details of options granted during the financial year are set out below. The value of performance shares for the current financial year is calculated as the share price at the date of issue discounted for vesting probabilities. Executive is included as one of the five named Company executives or Consolidated Entity executives who received the highest remuneration in the current financial year in accordance with executive as one of the five named Company executives or Consolidated Entity executives who received the highest remuneration in the current financial year in accordance with (iv)

(v) Executive is included as one of the fire and company executives of consolidated Entry executives who re-section 300A of the Corporations Act 2001. Executive is included as a key management person in accordance with AASB 124 Related Party Disclosures. Denotes Consolidated Entity and Company executives.

(vi) (vii)

#### Exercise of options granted as remuneration

During the financial year, the following shares were issued on the exercise of options previously granted as compensation:

	Number of shares	Amount paid \$/share
Executive director		
Dr CG Roberts	78,991	39.93
Executives		
Consolidated Entity		
Mr MD Salmon	27,011	39.93
Mr CM Smith	23,474	43.98
Mr DN Morris	22,706	39.93
Company		
Mr D Howitt	20,325	39.93
Mr J Janssen	16,713	39.93

During the previous financial year, 127,702 options were exercised. There are no amounts unpaid on the shares issued as a result of the exercise of the options in prior years.

#### Analysis of bonuses included in remuneration

Details of the vesting profile of the short-term incentive cash bonuses awarded as remuneration to each executive director of the Company and each of the five named Company executives and relevant Consolidated Entity executives are detailed below:

	Short-term incentive bonus							
Amounts \$	Included in remuneration	% vested in financial year <sup>(i)</sup>	% forfeited during financial year <sup>(ii)</sup>					
Executive director								
Dr CG Roberts	490,951	88.3%	11.7%					
Executives								
Consolidated Entity								
Mr R Brook	141,396	83.6%	16.4%					
Mr NJ Mitchell	140,589	87.6%	12.4%					
Mr MD Salmon	131,833	72.6%	27.4%					
Mr CM Smith	196,218	100.5%	-					
Mr DN Morris	118,891	88.1%	11.9%					
Company								
Mr D Howitt	114,939	88.1%	11.9%					
Mr J Janssen	117,415	87.9%	12.1%					

Amounts included in remuneration for the financial year represent the amounts that vested in the financial year based on achievement of personal goals and satisfaction of specified performance goals. No amounts vest in future financial years in respect of the CMSTIP for the 2010 financial year. The amounts forfeited in short-term incentive bonuses are due to the personal and specified performance service goals not being met in the current financial year. (i)

(ii)

#### Analysis of share based payments granted as remuneration

	17 August 2009	14,358	-	-	-	129,796	-	-	-	-	-

(i) The percentage forfeited in the financial year represents the reduction from the maximum number of options and performance shares available to vest due to EPS, TSR or employee service periods The minimum value of options and performance shares yet to vest is nil as the performance criteria may not be met and consequently, the options and performance shares may not vest.

(ii)

The maximum value of options and performance shares yet to vest is not determinable as it depends on the market price of shares of the Company on the ASX at the date the option and performance shares vest. The maximum values disclosed above are based on the valuations as per this report. Options and performance shares vest three years after their initial grant date. (iii)

(iv)

#### Analysis of movements in options

The movement in value during the financial year of options over ordinary shares of Cochlear Limited held by each Company director and each of the five named Company executives and relevant Consolidated Entity executives is detailed below:

		Value of options	
	Granted in year <sup>(i)</sup>	Exercised in year <sup>(ii)</sup>	Forfeited in year <sup>(ii)</sup>
	\$	\$	\$
Executive director			
Dr CG Roberts	529,735	1,798,983	102,215
Executives			
Consolidated Entity			
Mr R Brook	177,754	-	33,740
Mr NJ Mitchell	187,001	-	27,545
Mr MD Salmon	174,870	484,847	26,747
Mr CM Smith	202,306	466,498	19,675
Mr DN Morris	131,125	518,832	23,449
Company			
Mr D Howitt	125,683	492,068	20,288
Mr J Janssen	129,796	299,998	30,794

(i)

The value of options granted in the year is the fair value of the options calculated at grant date using a Black-Scholes model. The total value of the options granted is included in the table above. This amount is allocated to remuneration over the vesting period (i.e. in years 30 June 2010 to 30 June 2013). The value of options exercised and forfeited during the year is calculated as the market price of shares of the Company on the ASX as at close of trading on the date the options were exercised or forfeited after deducting the price paid or payable to exercise the option. (ii)

#### Other items - unaudited

#### Unissued shares under option

At the date of this report, unissued ordinary shares of the Company under options are:

Number of options	Plan	Exercise price per share	Exercise period
312,058	CELTIP	\$49.43	August 2009 – September 2011
378,811	CELTIP	\$63.18	August 2010 – September 2012
696,113	CELTIP	\$49.91	August 2011 – September 2013
431,619	CELTIP	\$60.04	August 2012 – September 2014

These options do not entitle the holder to participate in any share issue of the Company or any other body corporate.

The closing share price at 30 June 2010 was \$74.32.

During the financial year, the Company granted 435,606 options over ordinary shares to employees under the CELTIP. The options are exercisable in the two years following lodgement with the ASX of the Company's preliminary final report for the year ending 30 June 2012. The number of options which will be exercisable is dependent on the performance measures and retention requirements set out in this Remuneration Report.

During the year, 51,930 options granted by the Company were forfeited.

#### **Directors' interests**

The relevant interest of each director in the share capital of the Company, as notified by the directors to the ASX in accordance with section 205G(1) of the Corporations Act 2001, at the date of this report is as follows:

	Cochlear Limited ordinary shares	Options over ordinary shares
Mr PR Bell	2,500	-
Prof E Byrne, AO	2,000	-
Mr A Denver	2,500	-
Mr R Holliday-Smith	2,500	-
Mr DP O'Dwyer	3,350	-
Dr CG Roberts	660,592	283,817

#### Indemnification of officers

Under the terms of Article 35 of the Company's Constitution, and to the extent permitted by law, the Company has indemnified the directors of the Company named in this Directors' Report, the Company Secretary, Mr NJ Mitchell, and other persons concerned in or taking part in the management of the Consolidated Entity. The indemnity applies when persons are acting in their capacity as officers of the Company in respect of:

- liability to third parties (other than the Company or related bodies corporate), if the relevant officer has acted in good faith; and
- costs and expenses of successfully defending legal proceedings in which relief under the Corporations Act 2001 is granted to the relevant officer.

#### Insurance premiums

During the financial year, the Company paid a premium for Directors' and Officers' Liability Insurance policy and a Supplementary Legal Expenses Insurance policy. The insurance provides cover for the directors named in this Directors' Report, the Company Secretary, and officers and former directors and officers of the Company. The insurance also provides cover for present and former directors and officers of other companies in the Consolidated Entity. The directors have not included details of the nature of the liabilities covered and the amount of the premium paid in respect of the Directors' and Officers' Liability and Supplementary Legal Expenses Insurance policies, as such disclosure is prohibited under the terms of the contract.

#### Events subsequent to the reporting date

Other than the matter noted below, there has not arisen in the interval between the end of the financial year and the date of this Directors' Report, any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of Cochlear, the results of those operations, or the state of affairs of Cochlear in future financial years:

#### Dividends

For dividends declared after 30 June 2010, see Note 9 to the financial statements.

DIRECTORS' REPORT Cochlear Limited for the year ended 30 June 2010

#### Lead auditor's independence declaration

The lead auditor's independence declaration is set out on page 16 and forms part of the Directors' Report for the financial year ended 30 June 2010.

#### **Rounding off**

The Company is of a kind referred to in Australian Securities and Investments Commission (ASIC) Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, amounts in the Directors' Report and Financial Report have been rounded off to the nearest one thousand dollars, unless otherwise indicated.

Dated at Sydney this 10th day of August 2010.

Signed in accordance with a resolution of the directors:

 $\overline{1}$ 

Chrobel

Director

Director

# AUDITOR'S INDEPENDENCE DECLARATION

# Lead auditor's independence declaration under section 307C of the Corporations Act 2001

I declare that, to the best of my knowledge and belief, in relation to the audit for the year ended 30 June 2010 there have been: (i) no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audit; and (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

Cash and cash equivalents, net of overdrafts at 30 June	22(a)	42,808	80,016

### 1. Reporting entity

Cochlear Limited (the Company) is a company domiciled in Australia. The consolidated financial statements of the Company as at and for the year ended 30 June 2010 comprise the Company and its controlled entities (together referred to as Cochlear or the Consolidated Entity). Cochlear operates in the implantable hearing device industry.

### 2. Basis of preparation

### (a) Statement of compliance

The Financial Report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Accounting Interpretations) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The Financial Report of the Consolidated Entity and the Financial Report of the Company comply with International Financial Reporting Standards (IFRS) and Interpretations adopted by the International Accounting Standards Board (IASB).

The consolidated financial statements were approved by the Board of directors on 10 August 2010.

#### (b) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value. The method used to measure the fair value of derivative instruments is discussed further in Note 3(e).

#### (c) Functional and presentation currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency.

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to the nearest one thousand dollars unless otherwise stated.

# (d) Use of judgements and estimates

The preparation of financial statements in conformity with AASBs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and then reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Management discussed with the Audit Committee the development, selection and disclosure of Cochlear's critical accounting policies and estimates and the application of these policies and estimates.

In particular, information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following note:

Note 15 - Intangible assets.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Note 19 Provisions
- Note 20 Contingent liabilities
- Note 25 Employee benefits

Note 26 - Financial instruments.

#### (e) Changes in accounting policies

Starting as of 1 July 2009, Cochlear has changed its accounting policies in the following areas:

- Presentation of financial statements;
- Determination and presentation of operating segments;
- Accounting for business combinations; and
- Accounting for borrowing costs.

#### 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements and have been applied consistently by all entities in Cochlear.

#### (a) Basis of consolidation

#### **Controlled entities**

Controlled entities are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of controlled entities are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of controlled entities have been changed when necessary to align them with the policies adopted by the Consolidated Entity.

Acquisitions of a minority interest in a controlled entity are treated as a transaction with owners. Consequently, the difference between the purchase consideration and the carrying amount of Cochlear's interest in the net assets of the controlled entity is treated as goodwill.

#### Transactions eliminated on consolidation

Intra-group balances and any unrealised gains and losses or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

#### Special purpose entities

Cochlear has established special purpose entities (SPEs) for trading and investment purposes. An SPE is consolidated if, based upon an evaluation of the substance of its relationship with Cochlear and the SPE's risks and rewards, Cochlear concludes that it controls the SPE. SPEs controlled by Cochlear were established under terms that impose strict limitations on decision-making powers of the SPE's management.

#### (b) Income recognition

Revenues are recognised at fair value of the consideration received net of the amount of goods and services tax (GST).

#### Sales revenue

Sales revenue comprises revenue earned (net of returns, discounts and allowances) from the provision of products or services. Revenue from the sale of goods is recognised in the income statement when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or if there is a risk of return of goods or there is continuing management involvement with the goods. Revenue from the sale of services is recognised when the service has been provided to the customer and where there are no continuing unfulfilled service obligations.

The accounting policy for foreign exchange gains/losses arising from hedges of forecast sales transactions is set out in accounting policy (e).

#### Other income

Other income, including government grants, is recognised on a systematic basis over the periods necessary to match it with the related costs for which it is intended to compensate or, if the costs have already been incurred, in the period in which it becomes receivable. The income is deemed to be receivable when the entitlement is confirmed. Dividend income from subsidiaries is recognised by the parent entity when the dividends are declared by the subsidiary.

#### (c) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the taxation authority. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the relevant taxation authority is included as a current asset or liability in the balance sheet.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the relevant taxation authority are classified as operating cash flows.

#### (d) Foreign currency

#### Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of controlled entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities denominated in foreign currencies that are stated at historical cost are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at historical cost are translated at fair value are translated to the functional currency at the foreign exchange rate stated at fair value are translated to the functional currency at the foreign exchange rates ruling at the date the fair value was determined.

Foreign exchange differences arising on translation are recognised in the income statement.

#### Financial statements of foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, generally are translated to the functional currency at foreign exchange rates ruling at the reporting date.

The revenues and expenses of foreign operations are translated to the functional currency at rates approximating the foreign exchange rates ruling at the dates of transactions.

Foreign currency differences arising from translation of controlled entities with a different functional currency to that of Cochlear are recognised in the foreign currency translation reserve (FCTR). When a foreign operation is disposed of, in part or in full, the relevant amount of its FCTR is transferred to the income statement.

Foreign exchange gains and losses arising from a monetary item receivable from or payable to a foreign operation, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of a net investment in a foreign operation and are recognised directly in equity in the FCTR.

#### (e) Financial instruments

#### Derivative financial instruments

Cochlear holds derivative financial instruments to hedge its exposure to foreign exchange risk and interest rate risk arising from operating, investing and financing activities. In accordance with its treasury policy, Cochlear does not hold or issue derivative financial instruments for trading purposes. However, derivatives that do not qualify for hedge accounting are accounted for as trading instruments.

On initial designation of the hedge, Cochlear formally documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship. Cochlear makes an assessment, both at inception of the hedge relationship as well as on an ongoing basis, whether the hedging instruments are expected to be highly effective in offsetting the changes in the fair value or cash flows of the respective hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80% to 125%. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately occur.

Derivative financial instruments are recognised initially at fair value. Attributable transaction costs are recognised in the income statement when incurred. Subsequent to initial recognition, derivative financial instruments are measured at fair value with changes in fair value accounted for as described below.

#### Non-derivative financial assets and liabilities

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through the income statement, any attributable transaction costs. Subsequent to initial recognition, non-derivative financial instruments are measured as described below.

Accounting for finance income and expense is discussed in accounting policy (q).

#### Determination of fair values

The fair value of forward exchange contracts is based upon the listed market price, if available. If a listed market price is not available, the fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk free interest rate based upon government bonds.

The fair value of interest rate swaps is based upon broker quotes which are then tested for reasonableness by discounting future estimated cash flows based upon the terms and maturity of each contract and using market interest rates for similar instruments.

#### Other

Other non-derivative financial instruments are measured at amortised cost using the effective interest rate method, less any impairment losses.

#### Cash flow hedges

Changes in the fair value of the derivative financial instrument designated as a cash flow hedge are recognised directly in equity to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in the income statement.

If the derivative financial instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in equity remains there until the forecast transaction occurs or when cash flows arising from the transaction are received.

When the forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated cumulative gain or loss is removed from equity and transferred to the carrying amount of the non-financial asset or liability. If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, then the associated gains and losses that were previously recognised directly in equity are reclassified into the income statement in the same period or periods during which the asset acquired or liability assumed affects the income statement.

For cash flow hedges, other than those covered by the preceding statement, the associated cumulative gain or loss is removed from equity and recognised in the income statement in the same period or periods during which the hedged forecast transaction affects the income statement and on the same line item as that hedged forecast transaction. The ineffective part of any gain or loss is recognised immediately in the income statement.

#### Hedges of net investment in foreign operations

Foreign currency differences arising on the retranslation of a financial liability designated as a hedge of a net investment in a foreign operation are recognised in other comprehensive income to the extent that the hedge is effective, and are presented within equity in the FCTR. To the extent that the hedge is ineffective, such differences are recognised in the income statement. When the hedge part of a net investment is disposed of, the relevant amount in the FCTR is transferred to the income statement as part of the profit or loss on disposal.

#### (f) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with an original maturity of three months or less. Bank overdrafts that are repayable on demand and form an integral part of Cochlear's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

#### (g) Provisions

A provision is recognised in the balance sheet when Cochlear has a present legal or constructive obligation as a result of a past event that can be measured reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The unwinding of the discount rate is recognised as a finance cost.

#### Warranties

Provisions for warranty claims are made for claims in relation to sales made prior to the reporting date, based on historical claim rates and respective product populations. Warranty periods on hardware products extend for three to 10 years. Cochlear is expected to incur the majority of the liability over the next 10 years.

#### **Onerous contracts**

A provision for onerous contracts is recognised when expected benefits to be derived by Cochlear from a contract are lower than the unavoidable cost of meeting contractual obligations. The provision is measured at the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, Cochlear recognises any impairment loss on the assets associated with the contract.

#### Self-insurance

Cochlear self-insures to manage certain risks associated with operating in its line of business. Claims are recognised when an incident occurs that may give rise to a claim and are measured at the cost that Cochlear expects to incur in settling the claims, discounted using a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### Make good lease costs

Cochlear has a number of operating leases over its offices that require the premises to be returned to the lessor in its original condition. The operating lease payments do not include an element for the repairs/overhauls.

A provision for make good lease costs is recognised at the time it is determined that it is probable that such costs will be incurred in a future period, measured at the expected cost of returning the asset to the lessor in its original condition. An offsetting asset of the same value is also recognised and is classified in property, plant and equipment. This asset is amortised to the income statement over the life of the lease.

#### (h) Intangible assets

#### Goodwill

As from 1 July 2009, Cochlear adopted the revised AASB 3 Business Combinations (2008) and the amended AASB 127 Consolidated and Separate Financial Statements (2008). Revised AASB 3 and amended AASB 127 have been applied prospectively to business combinations with an acquisition date on or after 1 July 2009.

The change in accounting policy had no material impact on net profit or EPS.

All business combinations are accounted for by applying the purchase method. Goodwill represents the difference between the cost of the acquisition and the fair value of the net identifiable assets acquired.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash generating units and is tested annually for impairment (see accounting policy (i)). Negative goodwill arising on an acquisition is recognised directly in the income statement.

#### Enterprise resource planning system

The expenditure incurred on hardware and software and the costs necessary for the implementation of the system are recognised as an intangible asset, to the extent that Cochlear controls future economic benefits as a result of the costs incurred, and are stated at cost less accumulated amortisation. Costs include expenditure that is directly attributable to the development and implementation of the system and includes direct labour.

#### Research and development expenditure

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the income statement as an expense as incurred.

Development activities involve a plan or design for production of new or substantially improved products or processes before the start of commercial production or use. Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and Cochlear intends to and has sufficient resources to complete development and use or sell the asset.

The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Other development expenditure is recognised in the income statement as an expense as incurred. Capitalised development expenditure is stated at cost less accumulated amortisation (see below) and impairment losses (see accounting policy (i)).

#### Other intangible assets

Other intangible assets, comprising acquired technology, patents and licences, customer relationships and intellectual property, are acquired individually or through business combinations and are stated at cost less accumulated amortisation (see below) and impairment losses (see accounting policy (i)). Expenditure on internally generated goodwill and brands is recognised in the income statement as an expense as incurred.

#### Subsequent expenditure

Subsequent expenditure on capitalised intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is expensed as incurred.

#### Amortisation

Amortisation is calculated over the cost of the asset, or an other amount substituted for cost, less its residual value.

Amortisation is recognised in the income statement on a straight-line basis over the estimated useful lives of the intangible assets from the date they are available for use unless such lives are indefinite. Goodwill and intangible assets with an indefinite useful life are systematically tested for impairment annually. The estimated useful lives for the current and comparative periods are as follows:

Acquired technology, patents and licences	4 – 15 years
Enterprise resource planning system	2.5 – 5 years
Customer relationships	4 years
Capitalised development expenditure	1 – 3 years.

#### (i) Impairment

#### Non-financial assets

The carrying amounts of Cochlear's non-financial assets, other than inventories (see accounting policy (k)), employee benefit assets (see accounting policy (n)), are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated (see below).

For goodwill and intangible assets that have indefinite useful lives, and intangible assets that are not yet available for use, the recoverable amount is estimated at each balance sheet date.

The recoverable amount of an asset or cash generating unit is the greater of its value in use, and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that is largely independent of the cash inflows of other assets or groups of assets (cash generating unit). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash generating units that are expected to benefit from the processes, intellectual property acquired and synergies of the combination.

An impairment loss is recognised whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in the income statement unless the asset has previously been revalued, in which case the impairment loss is recognised as a reversal to the extent of that previous revaluation, with any excess recognised through the income statement.

Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash generating unit or a group of units and then, to reduce the carrying amount of the other assets in the unit or a group of units on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### Financial assets

Cochlear's financial assets (cash and cash equivalents, trade and other receivables, and investments in controlled entities) are assessed at each reporting date to determine whether there is any objective evidence of impairment. A financial asset is considered impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

The recoverable amount of financial assets is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets). Financial assets with a short duration are not discounted. An impairment loss of a financial asset is measured as the difference between the asset's carrying amount and its recoverable amount.

Impairment of financial assets is not recognised until objective evidence is available that a loss event has occurred. Individual significant financial assets are individually assessed for impairment. Impairment testing of financial assets not assessed individually is performed by placing them into portfolios of similar risk profiles and undertaking a collective assessment of impairment based on objective evidence from historical experience adjusted for any effects of conditions existing at the balance date.

All impairment losses are recognised in the income statement. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. The reversal of impairment losses on financial assets is recognised in the income statement.

In assessing collective impairment, Cochlear uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

#### (j) Property, plant and equipment

#### **Owned assets**

Items of property, plant and equipment are stated at cost less accumulated depreciation (see below) and impairment losses (see accounting policy (i)). An asset's cost is determined as the consideration provided plus incidental costs directly attributable to the acquisition.

The cost of self-constructed assets includes the cost of material and direct labour, an appropriate share of fixed and variable overheads, and capitalised interest and any other costs directly attributable to bringing the asset to a working condition for its intended use.

Subsequent costs in relation to replacing a part of property, plant and equipment are recognised in the carrying amount of the item if it is probable that future economic benefits embodied within the part will flow to Cochlear and its cost can be measured reliably. All other costs are recognised in the income statement as incurred.

In respect of borrowing costs relating to qualifying assets, Cochlear capitalises borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset.

#### Leased assets

#### **Operating leases**

Payments made under operating leases are expensed on a straight-line basis over the term of the lease, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased property. Minimum lease payments include fixed rate increases.

#### Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in the income statement on a straight-line basis. Items of property, plant and equipment, including leasehold assets, are depreciated using the straight-line method over their estimated useful lives, taking into account estimated residual values. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time an asset is completed and held ready for use. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that Cochlear will obtain ownership by the end of the lease term.

Depreciation rates and methods, useful lives and residual values are reviewed at each balance sheet date. When changes are made, adjustments are reflected prospectively in current and future financial periods only. The estimated useful lives in the current and comparative periods are as follows:

Leasehold improvements	2 – 12 years
Plant and equipment	3 – 14 years.

#### (k) Inventories

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and selling, marketing and distribution expenses.

Cost is based on the first-in-first-out principle and includes expenditure incurred in acquiring the inventories and bringing them to their existing condition and location. In the case of manufactured inventories and work in progress, cost includes an appropriate share of both variable and fixed overhead costs. Fixed overhead costs are allocated on the basis of normal operating capacity.

#### (I) Employee benefits

#### Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

Prepaid contributions are recognised as an asset. Contributions to a defined contribution plan that are due more than 12 months after the end of the period in which the employees render the service are discounted to their present value.

Obligations for contributions to defined contribution plans are recognised as an expense in the income statement as incurred.

#### Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

A liability or asset in respect of defined benefit plans is recognised in the balance sheet, and is measured as the present value of the defined benefit obligation at the reporting date adjusted for unrecognised actuarial gains or losses less the fair value of the plan's assets at that date and any unrecognised past service cost. The present value of the defined benefit obligation is based on expected future payments which arise from membership of the plan to the reporting date, calculated by independent actuaries using the projected unit credit method.

When the calculation results in plan assets exceeding liabilities to Cochlear, the recognised asset is limited to the net total of any unrecognised actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Past service cost is the increase in the present value of the defined benefit obligation for employee services in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service costs may either be positive (where benefits are introduced or improved) or negative (where existing benefits are reduced).

Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match the estimated future cash flows.

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognised as an expense in the income statement on a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in the income statement.

The full amount of actuarial gains and losses that arise are recognised directly in equity.

#### Wages, salaries and annual leave

Liabilities for employee benefits for wages, salaries and annual leave expected to settle within 12 months of the year end represent present obligations resulting from employees' services provided up to the reporting date, calculated at undiscounted amounts based on remuneration wage and salary rates that Cochlear expects to pay as at the reporting date including related on-costs, such as workers' compensation insurance and payroll tax.

#### Long service leave

The provision for employee benefits for long service leave represents the present value of the estimated future cash outflows to be made by the employer resulting from employees' services provided up to the reporting date.

The provision is calculated using expected future increases in remuneration rates, including related on-costs, and expected settlement dates based on turnover history, and is discounted using the rates attaching to national government securities at the reporting date, which most closely match the terms to maturity of the related liabilities. The unwinding of the discount is treated as a long service leave expense.

#### Share based payments

The Company has granted options and performance shares to certain employees under the Cochlear Executive Long Term Incentive Plan (CELTIP).

The fair value of options and shares granted is recognised as an employee benefits expense with a corresponding increase in equity. The fair value is measured at the date the options or shares are granted taking into account market based criteria and expensed over the vesting period after which the employees become unconditionally entitled to the options and shares. The fair value of the options granted is measured using the Black-Scholes method, taking into account the terms and conditions attached to the options.

The fair value of the performance shares granted is measured using the weighted average share price of ordinary shares in the Company, taking into account the terms and conditions attached to the shares.

The amount recognised as an expense is adjusted to reflect the actual number of options and shares that vest except where forfeiture is due to market related conditions.

When the Company grants options over its shares to employees of controlled entities, the fair value at grant date is recognised as an increase in the investment in subsidiaries, with a corresponding increase in equity over the vesting period of the grant.

#### Treasury shares

The Company operates the Cochlear Executive Long Term Incentive Plan (Performance Shares) Trust (Trust). The main purpose of the Trust is to hold unvested performance shares as part of the CELTIP. Under IFRS, the Trust qualifies as an equity compensation plan special purpose entity and its results are included in those for the Company and the Consolidated Entity.

Any shares held by the Trust are accounted for as treasury shares and treated as a reduction in the share capital of the Company and the Consolidated Entity.

#### (m) Receivables

Trade and other receivables are stated at amortised cost less impairment losses (see accounting policy (i)).

#### (n) Taxation

Income tax expense in the income statement comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is calculated using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Temporary differences are not provided for the initial recognition of goodwill and other assets or liabilities in a transaction that affects neither accounting nor taxable profit, or differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based upon the laws that have been enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same taxation authority on the same taxable entity or on a different tax entity but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

#### Tax consolidation

The Company and its wholly-owned Australian resident entities are part of a tax-consolidated group. As a consequence, all members of the tax-consolidated group are taxed as a single entity. The head entity within the tax-consolidated group is Cochlear Limited.

Current tax expenses/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the separate taxpayer within group approach, by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities or assets and deferred tax assets arising from unused tax losses of subsidiaries are assumed by the head entity in the tax-consolidated group and are recognised by the Company as amounts payable/receivable to/from other entities in the tax-consolidated group in conjunction with any tax funding arrangement amounts. Any difference between these amounts is recognised by the Company as an equity contribution or distribution.

The Company recognises deferred tax assets arising from unused tax losses of the tax-consolidated group to the extent that it is probable that future taxable profits of the tax-consolidated group will be available against which the assets can be utilised.

Any subsequent period adjustments to deferred tax assets arising from unused tax losses as a result of revised assessments of the probability of recoverability are recognised by the head entity only.

#### Nature of tax funding arrangements and tax sharing arrangements

The Company, in conjunction with other members of the tax-consolidated group, has entered into a tax funding arrangement which sets out the funding obligations of members of the tax-consolidated group in respect of tax amounts. The tax funding arrangements require payments to and from the Company equal to the current tax liability, current tax asset or deferred tax asset assumed by the Company. This results in the Company recognising an inter-entity receivable or payable equal in amount to the tax liability or asset assumed.

Contributions to fund the tax liabilities are payable as per the tax funding arrangement and reflect the timing of the Company's obligation to make payments for tax liabilities to the relevant taxation authorities.

The Company, in conjunction with other members of the tax-consolidated group, has also entered into a tax sharing agreement. This tax sharing agreement provides for the determination of the allocation of income tax liabilities between the entities should the Company default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

#### (o) Payables

Trade and other payables are stated at amortised cost.

# (p) Loans and borrowings

Loans and borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, loans and borrowings are stated at amortised cost, with any difference between amortised cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest rate basis.

# (q) Finance income and expense

Interest income is recognised as it accrues in the income statement using the effective interest rate method. Borrowing costs are recognised as they accrue in the income statement as a finance expense except to the extent that borrowing costs relate to the purchase of qualifying assets in which case they are capitalised into the purchase cost of the qualifying asset as permitted by AASB 123 Borrowing Costs (2007). Debt establishment costs are capitalised and recognised as a reduction in loans and borrowings. They are calculated based on the effective interest rate method and are amortised over the period of the loan. Foreign exchange differences net of the effect of hedges on borrowings, are recognised in net finance income/(expense).

#### (r) Earnings per share

Cochlear presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the net profit attributable to equity holders of the parent entity for the financial period, after excluding any costs of servicing equity (other than ordinary shares) by the weighted average number of ordinary shares of the Company, adjusted for any bonus issue.

Diluted EPS is calculated using the basic EPS earnings as the numerator. The weighted average number of shares used as the denominator is adjusted by the after-tax effect of financing costs associated with the dilutive potential ordinary shares and the effect on revenues and expenses of conversion to ordinary shares associated with dilutive potential ordinary shares adjusted for any bonus issue.

#### (s) Segment reporting

#### Determination and presentation of operating segments

As of 1 July 2009, Cochlear determines and presents operating segments based on the information that internally is provided to the Chief Executive Officer (CEO), who is Cochlear's chief operating decision maker. This change in accounting policy is due to the adoption of IFRS 8 Operating Segments. Previously, operating segments were determined and presented in accordance with AASB 114 Segment Reporting. The new accounting policy in respect of segment operating disclosures is presented as follows.

Comparative segment information has been re-presented in conformity with the transitional requirements of IFRS 8. Since the change in accounting policy only impacts presentation and disclosure aspects, there is no impact on net profit or EPS.

An operating segment is a component of Cochlear that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of Cochlear's other components if separately reported and monitored. An operating segment's operating results are reviewed regularly by the CEO to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the CEO include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate head office results.

#### (t) Share capital

#### **Ordinary shares**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any income tax benefit.

#### Repurchase of share capital (treasury shares)

When share capital recognised as equity is repurchased, the amount of the consideration paid, including directly attributable costs, is recognised as a deduction from equity, net of any tax effects. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are subsequently sold or reissued, the amount received is recognised as an increase in equity, and the surplus or deficit on the transaction is transferred to or from retained earnings.

#### Dividends

A liability for dividends payable is recognised in the financial period in which the dividends are declared.

# (u) Construction contracts

Construction contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a construction contract can be estimated reliably, construction contract revenue and expenses are recognised in the income statement.

Construction contract revenue and expenses are estimated and recognised in accordance with the percentage of completion method which is assessed by reference to surveys of work performed.

When the outcome of a construction contract cannot be reliably estimated, construction contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in the income statement.

Construction activities are not part of the ordinary course of Cochlear's business. Cochlear will be exposed to the usual risks associated with construction.

# (v) Presentation of financial statements

Cochlear applies revised AASB 101 Presentation of Financial Statements (2007), which became effective as of 1 January 2009. As a result, Cochlear presents in the statement of changes in equity all owner changes in equity, whereas all non-owner changes in equity are presented in the statement of comprehensive income. This presentation has been applied in this Financial Report at and for the year ended 30 June 2010.

Comparative information has been re-presented so that it also is in conformity with the revised standard. Since the change in accounting policy only impacts presentation aspects, there is no impact on net profit or EPS.

#### (w) New standards and interpretations not yet adopted

The following standards, amendments to standards, and interpretations have been identified as those which may impact the entity in the period of initial application. They are available for early adoption at 30 June 2010, but have not been applied in preparing this Financial Report:

- AASB 9 Financial Instruments;
- AASB 124 Related Party Disclosures;
- AASB 2009-5 Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project;
- AASB 2009-8 Amendments to Australian Accounting Standards Group Cash-settled Share-based Payment Transactions;
- AASB 2009-10 Amendments to Australian Accounting Standards Classification of Rights Issues;
- AASB 2009-14 Amendments to Australian Interpretation Prepayments of a Minimum Funding Requirement; and
- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments.

The impact of these standards and interpretations is not considered to be significant and will be applied by Cochlear on the relevant application date.

NOTES TO THE FINANCIAL STATEMENTS Cochlear Limited and its controlled entities for the year ended 30 June 2010

# 4. Financial risk management

# Overview

Cochlear has exposure to the following risks from the use of financial instruments:

- Credit risk;
- · Liquidity risk;
- Market risk; and
- Operational risk.

This note presents information about Cochlear's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and the management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of directors has overall responsibility for the establishment and oversight of the risk management framework. The fundamentals of risk management are set by the risk policy. Under instruction of the Board, management has established a Risk Management Committee which is responsible for monitoring operational and financial risk management throughout Cochlear. Monitoring risk management includes ensuring appropriate policies and procedures are published and adhered to. The Risk Management Committee reports to the Audit Committee on a regular basis.

A Treasury Management Committee has been established to administer aspects of risk management involving currency exposure and cash and funding management in accordance with the treasury risk policy. The treasury risk policy aims to manage the impact of short-term fluctuations on Cochlear's earnings. Over the longer term, permanent changes in market rates will have an impact on earnings.

Cochlear is exposed to risks from movements in exchange rates and interest rates that affect revenues, expenses, assets, liabilities and forecast transactions. Financial risk management aims to limit these market risks through ongoing operational and finance activities. Selected derivative and non-derivative hedging instruments are used for this purpose.

Exposure to credit, foreign exchange and interest rate risks arises in the normal course of Cochlear's business. Derivative financial instruments are used to hedge exposure to fluctuations in foreign exchange rates and interest rates.

The Company only hedges the risks that affect the cash flows between the parent entity and the controlled entities. Cochlear does not enter, hold or issue derivative financial instruments for trading purposes. Hedging transactions are only concluded with leading financial institutions whose credit rating is at least A on the Standard & Poor's rating index.

The Audit Committee oversees how management monitors compliance with Cochlear's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by Cochlear. The Audit Committee is assisted in its oversight by Internal Audit. Internal Audit undertakes regular reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

# Credit risk

Credit risk is the risk of financial loss to Cochlear if a customer, controlled entity or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from Cochlear's receivables from customers.

#### Trade and other receivables

Cochlear's exposure to credit risk is influenced mainly by the geographical location and characteristics of individual customers. Cochlear does not have a significant concentration of credit risk with a single customer.

Policies and procedures of credit management and administration of receivables are established and executed at a regional level. Individual regions deliver reports to management and the Board on debtor ageing and collection activities on a monthly basis.

In monitoring customer credit risk, the ageing profile of total receivables balances and individually significant debtors is reported by geographic region to the Board of directors on a monthly basis. Regional management is responsible for identifying high risk customers and placing restrictions on future trading, including suspending future shipments and administering dispatches on a prepayment basis. These actions are also reported to the Board on a monthly basis.

Cochlear has established an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures and a collective loss component established for groups of assets meeting certain ageing profiles and customer types.

#### Guarantees

Details of guarantees provided by Cochlear are provided in Note 20.

#### Liquidity risk

Liquidity risk is the risk that Cochlear will not be able to meet its financial obligations as they fall due. Cochlear's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Cochlear's reputation.

Cochlear monitors cash flow requirements and produces cash flow projections for the short and long term with a view to optimising return on investments. Typically, Cochlear ensures that it has sufficient funds on demand to meet expected operational net cash flows for a period of at least 30 days, including the servicing of financial obligations. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, Cochlear maintains lines of credit which are set out in Note 17.

#### Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect Cochlear's net profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Cochlear buys and sells derivatives in accordance with the treasury risk policy, and also incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set out by the treasury risk policy. Generally, Cochlear seeks to apply hedge accounting in order to manage volatility in earnings.

#### Currency risk

Cochlear is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the controlled entities, primarily Australian dollars (AUD), but also United States dollars (USD), Euros (EUR), Sterling (GBP), Swedish kroner (SEK), Japanese yen (JPY) and Swiss francs (CHF). The currencies in which these transactions primarily are denominated are AUD, USD, EUR, GBP, SEK and JPY.

Over 90% of Cochlear's revenues and over 50% of costs are denominated in currencies other than AUD. Currency risk is hedged in accordance with the treasury risk policy. Risk resulting from the translation of assets and liabilities of foreign operations into Cochlear's reporting currency is generally not hedged.

#### Interest rate risk

Cochlear is exposed to interest rate risks in Australia and Japan. See Note 26 for effective interest rates, repayment and repricing analysis of outstanding debt.

Interest rate risk is hedged on a case-by-case basis by assessing the term of borrowings and the purpose for which the funds are obtained. Hedging against interest rate risk is achieved by entering into interest rate swaps.

#### **Operational risk**

Operational risk is the risk of direct and indirect loss arising from a wide variety of causes associated with Cochlear's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of Cochlear's operations.

Cochlear's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to Cochlear's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to the Risk Management Committee. This responsibility is supported by the development of standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- · documentation of controls and procedures;
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- · development of contingency plans;
- training and professional development;
- · ethical and business standards; and
- risk mitigation, including insurance where this is effective.

Compliance with standards is supported by a program of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Audit Committee and senior management of Cochlear.

# Capital management

Cochlear's objectives when managing capital are to safeguard its ability to continue as a going concern, to provide returns to shareholders, to provide benefits to other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Board aims to maintain and develop a capital base appropriate to Cochlear's objectives and monitors a number of qualitative metrics as follows:

- net debt to equity ratio defined as net debt as a proportion of net debt plus total equity;
- dividend payout ratio defined as dividends as a proportion of net profit after tax for a given period;
- growth in EPS defined as a compound annual growth percentage in EPS over a three year period; and
- total shareholder return (TSR) defined as the percentage growth in share price over a three year period plus the cumulative three year dividend return calculated against the opening share price in the same three year period.

In order to maintain or adjust the capital structure, Cochlear may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Senior management tracks, manages and reports against these capital management metrics periodically as part of broader corporate governance responsibilities. In addition, the Board of directors undertakes periodic reviews of Cochlear's capital management position to assess whether the metrics continue to be appropriate and to assess whether the capital management structure is appropriate to meet Cochlear's medium and long-term strategic requirements.

Neither Cochlear nor any of its subsidiaries is subject to externally imposed capital requirements.

There were no significant changes in Cochlear's approach to capital management during the year.

Cochlear's net debt to equity ratio was as follows:

		2010	2009
	Note	\$000	\$000
Total loans and borrowings		156,745	188,583

	Cents per share	Total amount	Franked/ unfranked	Date of payment
		\$000		
9. Dividends				
Dividends recognised in the current financial year by the Company are:				
2010				
Interim 2010 ordinary	95.0	53,705	100% Franked	16 March 2010
Final 2009 ordinary	95.0	53,384	100% Franked	24 September 2009
Total amount	190.0	107,089		
2009				
Interim 2009 ordinary	80.0	44,834	100% Franked	17 March 2009
Final 2008 ordinary	80.0	44,682	100% Franked	25 September 2008
Total amount	160.0	89,516		

Franked dividends declared or paid during the financial year were franked at the tax rate of 30%.

Subsequent events				
Since the end of the financial year, the directors declared the following dividends:				
Final 2010 ordinary	105.0	59,371	60% Franked	23 September 2010
Total amount	105.0	59,371		

The financial effect of the 2010 final dividend has not been brought to account in the financial statements for the year ended 30 June 2010 and will be recognised in the subsequent financial period.

There are no further tax consequences as a result of paying dividends other than a reduction in the franking account as shown below:

	Company	
	2010	2009
	\$000	\$000
Dividend franking account		
30% franking credits available to shareholders of Cochlear Limited for subsequent financial years	5,509	11,133

The above amounts are based on the balance of the dividend franking account at year end adjusted for:

- franking credits that will arise from the payment of the current tax liability;
- franking debits that will arise from the payment of dividends recognised as a liability at the year end; and
- franking credits that the Company may be prevented from distributing in subsequent financial years.

The ability to utilise the franking account credits is dependent upon the ability to declare dividends. The impact on the dividend franking account of dividends proposed after the balance sheet date but not recorded as a liability is to reduce it by \$15,266,718 (2009: \$22,821,067).

No additional current tax liability will arise to the extent that franking credits are available with which to pay fully franked dividends. Dividends in excess of the balance of the dividend franking account will either be unfranked or result in a franking deficit tax liability payable by the Company to the extent that franking credits are provided that do not exist. The Company's policy is not to pay dividends with franking credits that will result in a franking deficit tax liability.

# 10. Operating segments

Cochlear has three reportable segments, which are determined on a geographical basis and are the strategic business units of Cochlear. Segment results, assets and liabilities include items directly attributable to a segment. Unallocated items comprise corporate and other net expenses and corporate and manufacturing assets and liabilities.

Information about each reportable segment is included below. Performance is measured based on segment profit before income tax as included in the internal management reports that are reviewed by Cochlear's CEO, who is also the chief operating decision maker. Segment profit before income tax is used to measure performance as management believes that such information is the most relevant in evaluating the results of each operating segment.

Comparative segment information has been re-presented in conformity with the requirement of AASB 8 Operating Segments.

11. Earnings per share		
Basic earnings per share		
The calculation of basic earnings per share for the year ended 30 June 2010 was based on net profit attributable to equity holders of the parent entity of \$155,152,000 (2009: \$130,540,000) and a weighted average number of ordinary shares on issue during the year ended 30 June 2010 of 56,279,542 (2009: 55,848,067) calculated as follows:		
Net profit attributable to equity holders of the parent entity	\$155,152,000	\$130,540,000
Weighted average number of ordinary shares (basic):		
Issued ordinary shares at 1 July (number)	55,977,555	55,524,746
Effect of options and performance shares exercised (number)	295,353	310,459
Effect of shares issued under Employee Share Plan (number)	6,634	12,862
Weighted average number of ordinary shares (basic) at 30 June	56,279,542	55,848,067
Basic earnings per share (cents)	275.7	233.7
Diluted earnings per share		
The calculation of diluted earnings per share for the year ended 30 June 2010 was based on net profit attributable to equity holders of the parent entity of \$155,152,000 (2009: \$130,540,000) and a weighted average number of ordinary shares on issue during the year ended 30 June 2010 of 56,576,557 (2009: 55,981,856) calculated as follows:		
Net profit attributable to equity holders of the parent entity	\$155,152,000	\$130,540,000
Weighted average number of ordinary shares (diluted):		
Weighted average number of shares (basic) (number)	56,279,542	55,848,067

Carrying amount at end of financial year	2,435	2,972

### Amortisation charge

Amortisation is recognised in the administration expenses line in the income statement except for amortisation of capitalised development expenditure which is recognised in the research and development expenses line.

### Impairment tests for cash generating units containing goodwill

For the purpose of impairment testing, goodwill is allocated to Cochlear's operating divisions which represent the lowest level within Cochlear at which the goodwill is monitored for internal management purposes, which is not higher than Cochlear's operating segments as reported in Note 10.

The aggregate carrying amounts of goodwill allocated to each unit are as follows:

	159,877	173,599
Asia Pacific	9,356	6,447
Europe	69,771	88,137
Americas	80,750	79,015
	\$000	\$000
	2010	2009

The recoverable amount of each cash generating unit is based on value-in-use calculations. Those calculations use cash flow projections based on actual operating results and the three year business plan. Cash flows for further periods are extrapolated using a conservative growth rate of 3.0% (2009: 3.0%) per annum which is consistent with the long-term economic growth rates. A post-tax discount rate of 10.0% (2009: 10.0%) per annum has been used in discounting the projected post-tax cash flows.

The key assumptions and the approach to determining their value in the current period are:

Assumption	How determined
Discount rate	Based on weighted average cost of capital
Sales volume growth rate	Based on a three year forecast taking into account historical growth rates and product lifecycle
Terminal value growth rate	Based on a three year forecast taking into account historical growth rates and product lifecycle.

The recoverable amount of each cash generating unit including unallocated corporate assets is in excess of their carrying amount and therefore no impairment charge was required. The excess of recoverable amount over carrying amount is such that a reasonably possible change in assumptions is unlikely to reduce the recoverable amount below the carrying amount.

Net deferred tax assets/(liabilities)	17,252	21,899	-	(179)	17,252	21,720

# Unrecognised deferred tax liabilities

At 30 June 2010, a deferred tax liability of \$20.1 million (2009: \$9.5 million) relating to investments in subsidiaries has not been recognised because the Company controls whether the liability will be incurred and it is satisfied that it will not be incurred in the foreseeable future.

# Current tax assets and liabilities

The current tax assets for the Consolidated Entity of \$7.7 million (2009: \$3.9 million) represent the amount of income taxes recoverable in respect of prior periods and arise from the payment of tax in excess of the amounts due to the relevant taxation authority. The current tax liabilities for the Consolidated Entity of \$12.6 million (2009: \$5.4 million) represent the amount of income taxes payable in respect of current and prior financial periods.

Bank guarantees – construction of Headquarters	-	1,000
	249,110	227,791

(i) Included within secured bank loans - operations is an amount of \$909,000 (2009: \$1,312,500) in relation to unamortised loan establishment fees.

# Unsecured bank overdrafts

Certain unsecured bank overdrafts are payable on demand and are subject to annual review. Interest on unsecured bank facilities is variable and is charged at prevailing market rates.

#### Secured bank loans

Cochlear has a JPY300 million bank facility maturing September 2012, which is secured by a letter of guarantee. Interest is charged at prevailing market rates.

# Secured bank loans - multi-option credit facility

Cochlear's corporate debt facility is a secured \$300.0 million multi-option credit facility maturing in June 2012. The facility provides Cochlear with the option to reallocate a sub-limit of up to \$15.0 million for the purpose of drawing either bank guarantees or letters of credit. The facility is secured by interlocking guarantees provided by certain controlled entities. Interest on the facility is variable and is charged at prevailing market rates.

### Secured bank loans - bank guarantee facility

In December 2009, Cochlear secured a GBP1.0 million bank guarantee line which is supported by corporate indemnities and guarantee of up to GBP2.0 million.

# Secured bank loan – construction of Headquarters

Details of loans and borrowings in relation to the construction of the Headquarters are set out in Note 28.

	2010	2009
	\$000	\$000
18. Commitments		
Operating lease commitments		
Future non-cancellable operating lease rentals not provided for in the financial statements are payable as follows:		
Not later than one year	19,487	11,753
Later than one year but not later than five years	71,912	60,406
Later than five years	152,145	153,042
Total operating lease commitments	243,544	225,201
Capital expenditure commitments		
Contracted but not provided for and payable:		
Not later than one year	8,035	1,852
Total capital expenditure commitments	8,035	1,852

Cochlear leases property under non-cancellable operating leases expiring from one to 12 years. Leases generally provide Cochlear with a right of renewal at which time all terms are renegotiated. Lease payments comprise a base amount plus an incremental contingent rental. Contingent rentals are based on movements in the Consumer Price Index.

Operating lease commitments include rental commitments to occupy the new Headquarters. The commencement of the lease and the underlying rental commitments is subject to satisfactory completion of the building which is estimated to be in October 2010.

Details of commitments in relation to the Headquarters under construction are set out in Note 28.

# **Employee benefits**

Employee benefits include entitlements measured at the present value of future amounts expected to be paid, based on a 5% per annum projected weighted average increase in remuneration rates over an average period of eight years. The present value is calculated using a weighted average discount rate of 3% per annum based on national government securities with similar maturity terms.

# Warranties

Refer to Note 3(g) for details of how the provision balance is determined.

# Legal and other

Refer to Note 3(g) for details of how the provision balance is determined.

# Directors' retirement scheme

Non-executive directors appointed prior to 2003 were entitled to retirement benefits of up to three times their annual remuneration over the previous three years once they had more than five years' service. The ongoing accrual of benefits under the directors' retirement scheme ceased from 30 June 2007. The benefits accrued to that date are indexed by reference to the bank bill rate.

# Make good lease costs

Refer to Note 3(g) for details of how the provision balance is determined.

# 20. Contingent liabilities

The details and estimated maximum amounts of contingent liabilities are set out below. The directors are of the opinion that provisions are either adequate or are not required in respect of these matters, as it is either not probable that a future sacrifice of economic benefits will be required, or the amount is not capable of reliable measurement.

# Patent infringement complaint

During the year ended 30 June 2008, the Company was served with a complaint for patent infringement by the Alfred E. Mann Foundation for Scientific Research (Mann Foundation). The complaint, filed in a US District Court of California, alleges that two patents have been infringed.

In May 2009, the complaint was dismissed for lack of standing to sue by the Mann Foundation. The dismissal was reversed by the US Court of Appeals in May 2010 and the complaint has returned to the District Court for further proceedings.

# Guarantees

Cochlear has a secured \$300.0 million multi-option credit facility maturing in June 2012. The facility provides Cochlear with the option to reallocate a sub-limit of up to \$15.0 million for the purpose of drawing either bank guarantees or letters of credit. The facility is secured by interlocking guarantees provided by certain controlled entities.

In December 2009, Cochlear secured a GBP1.0 million bank guarantee line which is supported by corporate indemnities and guarantee of up to GBP2.0 million.

# 21. Capital and reserves

# Share capital

		Number of issued shares in market circulation		Number of shares held in Trust under CELTIP		Total number of issued shares	
	2010	2009	2010	2009	2010	2009

Cochlear has also issued options (see Note 25(b)).

The Company does not have authorised capital or par value in respect of its issued shares.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at shareholders' meetings.

# **Treasury reserve**

The treasury reserve comprises the cost of shares acquired by the Trust at the date of purchase.

# **Translation reserve**

The translation reserve records the foreign currency differences arising from the translation of the financial statements of foreign operations as well as from the translation of liabilities that hedge the Company's net investment in a foreign subsidiary, where their functional currency is different to the presentation currency of the reporting entity. Refer to Note 3(d) for further details.

### Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to underlying transactions that have not yet occurred.

# Share based payment reserve

The share based payment reserve comprises the cost of shares distributed to eligible executives under the CELTIP, as detailed in Note 25(b).

# 22. Notes to the statement of cash flows

# Cash assets

The operating account received an average interest rate of 1.0% (2009: 2.9%) per annum.

Cash held on deposit for periods not exceeding 90 days received an average interest rate of 2.8% (2009: 4.0%) per annum.

# (a) Reconciliation of cash and cash equivalents

For the purpose of the statement of cash flows, cash includes cash on hand and at bank and short-term deposits, net of outstanding bank overdrafts. Cash and cash equivalents at the reporting date as shown in the statement of cash flows are reconciled to the related items in the balance sheet as follows:

	2010	2009
	\$000	\$000
Cash on hand	28,504	68,839
Cash on deposit	14,304	11,177

Mr J Janssen

Mr NJ Mitchell

Mr MD Salmon

Mr CM Smith.

#### Key management personnel disclosures

The key management personnel compensation is included in employee benefits expense as follows:

	2010	2009
	\$	\$
Short-term employee benefits	5,905,985	5,684,505
Post-employment benefits	287,104	330,843
Other long-term benefits	66,982	65,770
Directors' retirement benefits	51,413	53,261
Share based payments	1,176,764	1,166,847
	7,488,248	7,301,226

Information regarding individual directors' and executives' remuneration and some equity instruments disclosures as permitted by section 300A of the Corporations Act 2001 is provided in the Remuneration Report in the Directors' Report on pages 4 to 13.

The key management personnel have not received any loans from the Company and there have been no other related party transactions with any of Cochlear's key management personnel unless where noted throughout this Financial Report.

#### Options and performance shares granted as compensation

The movement during the financial year in the number of options over ordinary shares and performance shares of Cochlear Limited held, directly, indirectly or beneficially, by each key management person, including their personally related entities, is as follows:

	Held at 1 July 2009	Granted as remuneration	Vested and exercised	Forfeited	Held at 30 June 2010	Vested and exercisable at

No options held by key management personnel were vested but not exercisable at 30 June 2009 or 2010.

All options and performance shares granted in the 2010 financial year were granted on 17 August 2009 and vest in August 2012. Options have an expiration date of 17 August 2014. No options or performance shares have been granted since the end of the financial year. The options and performance shares were provided at no cost to the recipients.

All options granted during the financial year have an exercise price of \$60.04 per share and a fair value of \$10.03 per share at grant date for options with performance based conditions and \$8.06 per share at grant date for options with market based conditions. The performance shares granted during the financial year had a fair value at grant date of \$40.78 per share for performance shares with performance based conditions and \$32.27 per share at grant date for performance shares with market based conditions.

# Movement in shares

The movement during the financial year in the number of ordinary shares of Cochlear Limited held, directly, indirectly or beneficially, by each key management person, including their related parties, is as follows:

Cochlear has benefit plans that provide pension benefits to employees upon retirement. These defined benefit plans cover, in aggregate, 64 employees. Cochlear contributed cash of \$0.9 million (2009: \$0.8 million) to defined benefit plans in the year ended 30 June 2010 and expects to contribute \$0.8 million in the year ending 30 June 2011. The net assets of the plans at 30 June 2010 were \$0.3 million (2009: \$0.3 million).

# (a) Defined contribution superannuation plans

Cochlear makes contributions to defined contribution plans. The amount recognised as expense was \$11.7 million for the year ended 30 June 2010 (2009: \$11.2 million).

# (b) Share based payments

Cochlear's Employee Share Plan (Plan) was approved by special resolution at the Annual General Meeting held on 19 October 1999. Under the Plan, the directors can at their discretion, allocate at nil consideration up to a maximum of \$2,000 worth of shares per eligible employee in any one year. The fair value of shares issued during the financial year is the market price of the Company's shares on the ASX as at the start of trading on the issue date. Shares under the Plan vest with the employee immediately but are non-transferable for a period of up to three years.

The CELTIP was approved and adopted at the Annual General Meeting on 20 October 2003 and replaced the Executive Share Option Plan. The CELTIP offers a mixture of options over unissued shares and performance shares. Both the options and the performance shares are subject to a three year vesting period. The number of options and performance shares exercisable by the executives will depend on the performance of Cochlear over the vesting period. Half of the offer will be assessed against the compound annual growth rate of the EPS achieved by Cochlear, and the other half against the TSR as measured against the S&P/ASX 100. If the minimum compound annual growth rate in EPS of 10% is not achieved, 50% of shares will not be issued or released to the executives. If the TSR of Cochlear is below the 50<sup>th</sup> percentile against the S&P/ASX 100 over the three years, the remaining 50% of shares will not be issued or released.

To achieve a 100% allocation of options and shares, a compound annual growth rate in EPS of more than 20% must be achieved and the TSR of Cochlear must be above the 75<sup>th</sup> percentile against the S&P/ASX 100.

At the date of this report, unissued ordinary shares of the Company under option and issued shares held in the Trust and the terms and conditions of the grants and issues are as follows:

Grant date	Number of instruments	Conditions for minimum vesting	Contractual life of options
Option grant in August 2006	156,029	Three years of service, a minimum compound annual growth rate in EPS of 10%.	5 years
	156,029	The Consolidated Entity's TSR is above the 50 <sup>th</sup> percentile against the S&P/ASX 100 over three years.	5 years

The number and weighted average exercise prices of options are as follows:

	Weighted average exercise price \$	Number of options	Weighted average exercise price \$	Number of options
	2010	2010	2009	2009
Outstanding at 1 July	50.71	1,895,423	47.83	1,600,944
Forfeited during the financial year	51.53	(51,930)	51.73	(29,928)
Exercised during the financial year	42.52	(460,498)	37.28	(387,924)
Granted during the financial year	60.04	435,606	49.91	712,331
Outstanding at 30 June	55.00	1,818,601	50.71	1,895,423
Exercisable at 30 June	49.43	312,058	39.93	334,864

The weighted average share price at date of exercise was \$61.83 (2009: \$53.41).

The estimated value of options for the current financial year is calculated at the date of grant using the Black-Scholes model, applying a 33.2% volatility, as reflected in the historical volatility.

For options outstanding at 30 June 2010, 312,058 options have an exercise price of \$49.43, 378,811 options have an exercise price of \$63.18, 696,113 options have an exercise price of \$49.91 and 431,619 options have an exercise price of \$60.04 (2009: 334,864 options at \$39.93, 476,273 options at \$49.43, 383,494 options at \$63.18 and 700,792 options at \$49.91). The weighted average remaining contractual life of options outstanding at the end of the year is three years (2009: three years).

# 26. Financial instruments

# Credit risk

# Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	278,641	273,728
Interest rate swap on loan for construction of Headquarters	204	-
Forward exchange contracts	68,841	30,472
Trade receivables and other receivables	166,788	163,240
Cash and cash equivalents	42,808	80,016
	\$000	\$000
	2010	2009

The maximum exposure to credit risk for trade receivables at the reporting date by geographic region was:

	159,529	153,326
Asia Pacific	25,216	22,693
Europe	77,735	78,460
Americas	56,578	52,173
	\$000	\$000
	2010	2009

#### Impairment losses

The ageing of Cochlear's trade receivables at the reporting date was:

	2010	2009
	\$000	\$000
Gross receivables		
Not past due	125,729	112,874
Past due 0 – 30 days	16,573	15,761
Past due 31 – 120 days	9,319	12,834
Past due 121 – 270 days	10,008	5,237
Past due 271 days and over	3,724	10,860
	165,353	157,566
Impairment losses	(5,824)	(4,240)
Trade receivables net of allowance for impairment losses	159,529	153,326

There are certain jurisdictions in which Cochlear operates where it is customary practice for customers to make payment beyond 270 days. As such, Cochlear discloses the balance as overdue; however, it is not indicative of a higher than normal credit risk as payments are typically received by Cochlear within the extended timeframes.

The movement in the allowance for impairment losses in respect of trade receivables during the year was as follows:

Balance at 30 June	(5,824)	(4,240)
Effect of movements in foreign exchange	396	(379)
Impairment losses recognised	(1,980)	(1,118)
Balance at 1 July	(4,240)	(2,743)
	\$000	\$000
	2010	2009

Impairment losses recognised in the year relate to significant individual customers or portfolios of customers which have been assessed as impaired under Cochlear's accounting policy as detailed in Note 3(i).

Based upon past experience, Cochlear believes that no impairment allowance is necessary in respect of trade receivables not past due.

The allowance accounts used in respect of trade receivables are used to record impairment losses unless Cochlear is satisfied that no recovery of the amount owing is possible; at that point, the amount considered non-recoverable is written off against the financial asset directly.

# Liquidity risk

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

	Effective interest	Carrying amount	Contractual cash flows	6 months or less	6 - 12 months	1 - 2 years	2 - 5 years	More than 5 years
	rate Per annum	\$000	\$000	\$000	\$000	\$000	\$000	\$000
Financial liabilities								
30 June 2010								
AUD floating rate loan	6.97%	79,091	90,774	2,812	2,766	85,196	-	-
AUD floating rate loan for construction of								
Headquarters	6.17%	73,811	75,342	75,342	-	-	-	-
JPY floating rate loan	1.85%	3,843	3,999	36	35	71	3,857	-
Trade and other payables	-	70,763	70,763	70,763	-	-	-	-
Total		227,508	240,878	148,953	2,801	85,267	3,857	-
	Effective interest rate	Carrying amount	Contractual cash flows	6 months or less	6 - 12 months	1 - 2 years	2 - 5 years	More than 5 years
	Per annum	\$000	\$000	\$000	\$000	\$000	\$000	\$000
Financial liabilities								
30 June 2009								
AUD floating rate loan	5.80%	172,687	203,585	5,087	5,005	10,092	183,401	-
AUD floating rate loan for construction of								
Headquarters	5.20%	11,997	12,829	314	309	12,206	-	-
Interest rate swap on loan for construction of								
Headquarters	4.01%	56	70	55	71	(56)	-	-
JPY floating rate loan	1.85%	3,899	4,130	36	36	72	3,986	-
Trade and other payables	-	64,881	64,881	64,881		-	-	
Total		253,520	285,495	70,373	5,421	22,314	187,387	-

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

### Cash flow hedges

In the year ended 30 June 2010, Cochlear designated some sales and purchases of various currencies as cash flow hedges to hedge the amount converted into AUD for forecast future transactions. These are hedges of forecast future transactions to manage the currency risk arising from exchange rate fluctuations. The hedged items were highly probable foreign currency transactions.

The effectiveness of the hedging relationship is calculated prospectively using regression analysis on market values. An effectiveness test is carried out retrospectively using the cumulative dollar offset method. For this, the changes in the fair values of the hedged item and the hedging instrument attributable to spot rate changes are calculated and a ratio is created. If this ratio is between 80% and 125%, the hedge is effective.

All material hedges were effective at the reporting date.

The following table indicates the periods in which the cash flows associated with Cochlear's derivatives that are cash flow hedges are expected to occur:

# 30 June 2010

	Carrying amount	Expected cash flows	6 months or less	6 - 12 months	1 - 2 years	2 - 5 years
	\$000	\$000	\$000	\$000	\$000	\$000
Forward exchange contracts	68,841	69,334	21,570	23,154	23,374	1,236

### 30 June 2009

	Carrying amount	Expected cash flows	6 months or less	6 – 12 months	1 - 2 years	2 - 5 years
	\$000	\$000	\$000	\$000	\$000	\$000
Forward exchange contracts	30,472	30,745	4,760	5,578	10,065	10,342

The expected impact on the income statement is not considered to be significantly different to the cash flow impact noted above.

#### **Currency risk**

# Exposure to currency risk

Cochlear's exposure to foreign currency risk was as follows, based upon notional amounts:

Gross balance sheet exposure	49,058	31,977	(2,357)	(26,873)	76,189
Trade payables	(11,734)	(4,793)	(5,845)	(37,873)	(52,615)
Secured bank loans	-	-	-	-	(300,000)
Trade receivables	60,792	36,770	3,488	11,000	428,804
30 June 2010					
Amounts local currency thousands	USD	EUR	GBP	SEK	JPY

Amounts local currency thousands	USD	EUR	GBP	SEK	JPY
30 June 2009					
Trade receivables	48,245	30,627	4,442	7,543	412,784
Secured bank loans	-	-	-	-	(300,000)
Trade payables	(9,128)	(3,813)	(5,945)	(23,792)	(93,759)
Gross balance sheet exposure	39,117	26,814	(1,503)	(16,249)	19,025

Cochlear enters into forward exchange contracts to hedge anticipated sales and purchases in USD, EUR, SEK and JPY.

The amounts of forward cover taken are in accordance with approved policy and internal forecasts.

The following table sets out the gross value to be received (sell) or paid (buy) under forward exchange contracts and the weighted average contracted exchange rates of outstanding contracts:

	Foreign exchange rates		Gross	/alue
	2010	2009	2010	2009
			\$000	\$000
Sell USD				
Not later than one year			217,940	182,564
Later than one year but not later than two years			155,102	114,232
Later than two years but not later than three years			51,599	59,633
Weighted average exchange rates contracted	0.78	0.75		
Sell EUR				
Not later than one year			187,329	154,629
Later than one year but not later than two years			94,591	86,196
Later than two years but not later than three years			40,457	31,187
Weighted average exchange rates contracted	0.57	0.53		
Sell JPY				
Not later than one year			8,327	12,106
Later than one year but not later than two years			5,016	4,259
Later than two years but not later than three years			608	859
Weighted average exchange rates contracted	76.66	83.16		

The following significant exchange rates applied to Cochlear during the year:

AUD 1 =	Averag	Average rate		
	2010	2009	2010	2009
USD	0.877	0.762	0.874	0.808
EUR	0.634	0.548	0.708	0.575
GBP	0.554	0.466	0.580	0.489
SEK	6.421	5.654	6.764	6.303
JPY	80.497	75.873	78.064	76.938
CHF	0.932	0.844	0.950	0.876

# Interest rate risk

# Profile

At the reporting date, the interest rate profile of Cochlear's interest-bearing financial instruments was as follows:

	2010	2009
	\$000	\$000
Carrying amount		
Variable rate instruments		
Financial assets	42,808	80,016
Financial liabilities	156,745	188,583

# Sensitivity analysis

In managing interest rate and currency risks, Cochlear aims to reduce the impact of short-term fluctuations on Cochlear's earnings. However, over the longer term, permanent changes in foreign exchange and interest rates will have an impact on profit.

For the year ended 30 June 2010, it is estimated that a general increase of one percent in interest rates would have decreased Cochlear's profit after income tax and equity by approximately \$0.5 million (2009: \$0.7 million). A one percent decrease in interest rates would have had the equal but opposite effect on Cochlear's profit and equity.

It is estimated that a general increase of ten percent in the value of the AUD against other foreign currencies would have decreased Cochlear's profit for the year ended 30 June 2010, including hedging results and after income tax, by approximately \$4.1 million (2009: \$7.1 million) and decreased Cochlear's equity by \$4.4 million (2009: \$2.5 million). A ten percent decrease in the value of the AUD against other foreign currencies would have increased Cochlear's profit by \$4.5 million (2009: \$8.1 million) and increased equity by \$4.9 million (2009: \$2.5 million).

Details relating to financial instruments in relation to the construction of the Headquarters are set out in Note 28.

# Fair values

The fair values of financial assets and liabilities, together with carrying amounts shown in the balance sheet, are as follows:

		2010		2009	
		Carrying		Carrying	
		amount	Fair value	amount	Fair value
	Note	\$000	\$000	\$000	\$000
Cash and cash equivalents		42,808	42,808	80,016	80,016
Trade and other receivables – current	12	210,690	210,690	173,256	173,256
Trade and other receivables – non-current	12	25,143	25,143	20,456	20,456
Trade and other payables – current		(70,763)	(70,763)	(64,881)	(64,881)
Trade and other payables – non-current		(5,724)	(5,724)	(56)	(56)
Secured bank loans – operations	17	(82,934)	(83,843)	(176,586)	(177,899)
Secured bank loan – construction of Headquarters	17	(73,811)	(73,811)	(11,997)	(11,997)
Total		45,409	44,500	20,208	18,895

# Basis for determining fair values

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments reflected in the table above.

# Derivatives

The fair value of forward exchange contracts is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk free rate based on government bonds. These fair values are provided by independent third parties.

# Non-derivative financial assets and liabilities

The fair value of cash, receivables, payables and short-term borrowings is considered to approximate their carrying amount because of their short maturity.

The directors consider the carrying amount of long-term borrowings recorded in the financial statements approximates their fair value.

#### Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie. as prices) or indirectly (ie. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 2	Total
30 June 2010		
Derivative financial assets		
Forward exchange contracts	68,841	68,841
Interest rate swap on loan for construction of Headquarters	204	204
30 June 2009		
Derivative financial assets		
Forward exchange contracts	30,472	30,472
Derivative financial liabilities		
Interest rate swap on loan for construction of Headquarters	56	56

There have been no transfers between levels during the year.

# 27. Events subsequent to the reporting date

Other than the matter noted below, there has not arisen in the interval between the reporting date and the date of this Financial Report, any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to significantly affect the operations of Cochlear, the results of those operations, or the state of affairs of Cochlear in future financial years:

#### Dividends

For dividends declared after 30 June 2010, see Note 9.

# 28. Construction of Headquarters

Cochlear is building its new Headquarters at the Macquarie University (MU) site. Upon practical completion MU will pay Cochlear a development fee of approximately \$128.0 million at which time the building will be transferred to MU. There are no progress payments.

During the year ended 30 June 2009, Cochlear entered into agreements with MU to develop its new global Headquarters on MU's behalf. The Headquarters is being constructed on land owned by MU by a special purpose entity, Lachlan Project Development Pty Ltd. Adjacent land has been reserved by MU for future expansion by Cochlear over the next 25 years. Cochlear has subcontracted the construction of the Headquarters and, upon completion, will lease the premises for a minimum of 15 years. A MU entity will own the building.

Construction activities are not part of the ordinary course of Cochlear's business. Cochlear will be exposed to the usual risks associated with construction.

Construction contract revenue is determined as the sum of costs incurred plus interest capitalised during the year. Revenue is recognised on a percentage of completion basis. The following amounts have been recorded in the consolidated income statement for the year ended 30 June 2010:

		2010	2009
	Note	\$000	\$000
Construction contract revenue		63,696	6,687
Construction contract expense		(63,696)	(6,687)
Construction contract revenue, net of expense	5(c)	-	-

Financing for the construction has been received via a dedicated draw-down facility of \$110.0 million which includes an interest capitalisation limit of \$11.0 million. The facility provides Cochlear with funding for construction of the building project and excludes funding for specialist fit out work required by Cochlear to undertake its manufacturing operations. The facility makes specific reference to the building agreement, allowing for Cochlear to receive the full development fee from MU before repaying the facility. As at 30 June 2010, \$73.8 million (2009: \$12.0 million) of the facility was utilised.

The draw-down facility requires Cochlear to hedge at least 80% of its interest exposure on these borrowings. Hedging of borrowings is achieved by entering into interest rate swap agreements.

The facility is subject to a corporate guarantee requiring the Company to repay the facility if practical completion of the building work (and therefore, payment by MU) is not achieved by 3 June 2012.

Cochlear has signed an agreement to lease the premises for a minimum of 15 years upon completion. The newly constructed building will serve as Cochlear's global Headquarters, manufacturing and research facilities. The estimated commitments for lease rentals are disclosed in Note 18.

# The following balances related to the construction of the Headquarters are incorporated in the balance sheet.

		2010	2009
	Note	\$000	\$000
Assets			
Cash and cash equivalents		994	2,088

Total parent entity capital commitments for acquisition of plant and equipment	7,628	1,852

- 1 In the opinion of the directors of Cochlear Limited (the Company):
  - (a) the financial statements and notes, and the Remuneration Report in the Directors' Report set out on pages 4 to 72, are in accordance with the Corporations Act 2001, including:
    - (i) giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2010 and of its performance for the financial year ended on that date; and
    - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001;
  - (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 2(a); and
  - (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- 2 The directors have been given the declarations required by section 295A of the Corporations Act 2001 from the Chief Executive Officer and Chief Financial Officer for the financial year ended 30 June 2010.

Dated at Sydney this 10<sup>th</sup> day of August 2010.

# INDEPENDENT AUDIT REPORT to the Members of Cochlear Limited

#### Report on the financial report

We have audited the accompanying financial report of Cochlear Limited (the Company) and the entities it controlled at the year's end or from time to time during the financial year, which comprises the balance sheet as at 30 June 2010, and the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, a description of significant accounting policies and other explanatory Notes 1 to 29 and the directors' declaration.

#### Directors' responsibility for the financial report

The directors of the Company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 2(a), the directors also state, in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

#### Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial report presents fairly, in accordance with the *Corporations Act* 2001 and Australian Accounting Standards (including the Australian Accounting Interpretations), a view which is consistent with our understanding of the Consolidated Entity's financial position and of its performance.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

#### Auditor's opinion

In our opinion:

(a) the financial report of Cochlear Limited is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Consolidated Entity's financial position as at 30 June 2010 and of its performance for the year ended on that date; and
- (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001.

(b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 2(a).

#### **Report on the Remuneration Report**

We have audited the Remuneration Report included in the Directors' Report for the year ended 30 June 2010. The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with Section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with auditing standards.

#### Auditor's opinion

In our opinion, the Remuneration Report of Cochlear Limited for the year ended 30 June 2010, complies with Section 300A of the *Corporations Act* 2001.
